

# HSA COLOR FINISH OPTIONS

Information & Color Chart

## HIGH PRESSURE BLACK LAMINATE

Black Laminate Finish

In Spring 2021, HSA introduced our very popular black laminate. Our laminates offer superior quality in terms of durability. They are easier to clean and will stand up to extensive daily use for years to come. Our laminates will maintain their beautiful colors without worries of everyday wear fading or damaging the finish surface. Best of all, our new line of laminates allows us to produce our products more efficiently - meaning shorter lead times to get our products delivered to you!

## NATURAL VENEERS

Natural Maple

Natural Cherry

Your HSA product can be manufactured using beautiful, premium Plain-Sliced Natural Maple or Cherry veneers instead of our Northern Red Oak veneers (see our Seven Standard Stain Colors above on Northern Red Oak). Your Natural Maple or Natural Cherry is finished in HSA's resilient, water-clear, water-based, environmentally friendly acrylic semi-gloss top coats. Prices vary. Call your HSA dealer for availability and quote as this selection must be made prior to purchase. **\*\*Please Note\*\*** There is an additional cost for natural veneers. Please contact your HSA rep or HSA, Inc. for more information on pricing.
